

REMARKS

Applicants are uncertain whether the earlier-filed Amendment After Final was entered. (The Advisory Action stated it would be entered for purposes of appeal, but no appeal has been filed.)

Accordingly, the claim amendments shown above are based on the claims as pending when the Final Rejection was issued.

After the foregoing amendment, claims 1-5, 9-11, 16, 19, 21, 24, 28-37 and 39 remain pending in the application.

Claims 38 and 40 – which were noted in the Advisory Action as still rejected – have been canceled.

Accordingly, all claims are believed to be allowable, and action to that end is solicited.
